Commissioner for Patents

The Applicants response to Election/Restriction dated 1/5/12 is considered Non-Responsive. The Applicants have previously elected the process of claim 32 and the species salicylic acid. The Applicants are further required to elect from claim 18, and one of 35, 36 or 37 that would correspond to the previously elected species of the process of claim 32 and the species salicylic acid. As can be seen in claims 18, 35, 36 and 37, the Y's are different and would correlate to different species with different structures.
